🪪 PROFILE

An enthusiastic and detail-oriented BCA student driven by a passion for learning and expanding technical skills. Skilled in programming languages like JS, HTML, CSS, React, Bootstrap and currently building an innovative e-commerce project, "CouponBarter." Known for excellent teamwork, adaptability to evolving technologies, and a problem-solving mindset. Highly dedicated to delivering results and completing tasks with efficiency.

🎖 CERTIFICATES

Cyber Security ↗
Edunet Foundation (AICTE)

Frontend Development - HTML ↗
Great Learning

React JS ↗
Great Learning

🎓 EDUCATION

Bachelor of Computer Applications
Microtek College Of Management and Technology
2022 – 07/2025

Senior Secondary School
B.V.M School
2021 – 2022

Secondary School
Happy Model School
2019 – 2020

🧠 SKILLS

- Mongo DB
- Express JS
- React JS
- Node JS
- HTML
- CSS
- JavaScript
- Bootstrap

🎸 INTERESTS

- Exploring new programming tools and frameworks Constantly upgrading skills to stay modernize, which is why I am studying React. After this, I plan to dive deeper into MongoDB and Node.js to enhance my full-stack development expertise

📂 PROJECTS

Coupon Barter ↗
Developing a platform where users can securely buy and sell coupons With Login Signup and Wishlist working features.
- Technologies Used: React, Node.js, MongoDB
- Key Features: Login/Signup, Wishlist, selling page
